

Prescription Notice

Prescriptions are available from this practice for animals 'under the care' of our veterinary surgeons only.

Prescription Only Medicines (POM-Vs) can be obtained from your veterinary surgeon OR you may ask for a prescription to obtain these medicines from another veterinary surgeon or a pharmacy.

The cost of each prescription is £18.80.

Medicines are dispensed in amounts that will constitute 28 days' supply. Each prescription can then be used 'on repeat' by the pharmacy for 3 months.

A prescription may not be appropriate if your animal is an inpatient or immediate treatment is necessary.

You will be informed, on request, of the price of any medicine that may be dispensed for your animal.

The general policy of Park Vets is to reassess an animal requiring repeat prescriptions every 6 months minimum, but this may vary with the individual circumstances.

The charge for this is that of a standard reconsultation, which is currently £25.

Further information on the prices of all medicines is available on request.
